DETAILED ACTION

Rejection of claim 5 has been rendered moot by applicants' amendment.

Applicants' amendment fails to overcome rejection of claims 2-4, 7 and 8. Rejection is repeated below with a clearer representation of the anticipatory compound.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2-4, 7 and 8 rejected under 35 U.S.C. 102(b) as being anticipated by Fujii et al. (US 4,725,375). Fujii et al. disclose the following compound: $\text{CF}_3\text{CF}_2\text{-O-CF}(\text{CF}_3)\text{CF}_2\text{-O-(CH}_2\text{CF}_2\text{CF}_2\text{O)}_n\text{-CH}_2\text{CF}_2\text{-COOK}$, where "n" is 1-4 (see generic compound in column 3, line 36, first Anionic surfactant where "Rf" is defined in line 65; specific example in Column 4 Table 1, line 59). The said compound relates to the instant claims as follows:

Claim Objections

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Prior art search has failed to uncover references where Rf² is as defined in claim 6.

Conclusion

Claims 2-4 and 6-20 are pending

Claims 9-20 are withdrawn

Claims 2-4, 7 and 8 are rejected

Claim 6 is objected to

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

This action is a **final rejection** and is intended to close the prosecution of this application. Applicant's reply under 37 CFR 1.113 to this action is limited either to an appeal to the Board of Patent Appeals and Interferences or to an amendment complying with the requirements set forth below.

If applicant should desire to appeal any rejection made by the examiner, a Notice of Appeal must be filed within the period for reply identifying the rejected claim or claims appealed. The Notice of Appeal must be accompanied by the required appeal fee.

If applicant should desire to file an amendment, entry of a proposed amendment after final rejection cannot be made as a matter of right unless it merely cancels claims or complies with a formal requirement made earlier. Amendments touching the merits of the application which otherwise might not be proper may be admitted upon a showing a good and sufficient reasons why they are necessary and why they were not presented earlier.

A reply under 37 CFR 1.113 to a final rejection must include the appeal from, or cancellation of, each rejected claim. The filing of an amendment after final rejection, whether or not it is entered, does not stop the running of the statutory period for reply to the final rejection unless the examiner holds the claims to be in condition for allowance. Accordingly, if a Notice of Appeal has not been filed properly within the period for reply, or any extension of this period obtained under either 37 CFR 1.136(a) or (b), the application will become abandoned.
